THE FADED BLUE-BELL.

This pretty little blue-bell
Has never felt the frost,
And yet its beauty's faded,
And all its fragrance lost.
'Twas plucked by maiden fingers
But yesterday for me,
And then 'twas bright and blooming,
And sweet as it could be.
But now, alas! 'tis faded,
Its beauty passed away;
Just as may fade to-morrow
The hopes that bloom to-day.

I often sit and wonder
If fairy folks there be,
Or nymphs to haunt the brooklets
That warble o'er the lea;
And think perhaps each flow'ret
Is watched by fairy eyes,
And when the flower is faded
The guardian fairy dies.
If this be true, then surely,
If they're a loving band,
There must have been lamenting
Last night in fairy land;
They must have tolled the blue-bells
With low and mournful sound,
As passed a slow procession
To fairy burying-ground.
Methinks I see them standing
Beside the narrow bed,
A flake of frozen moonlight
Erected at its head,
Whereon is dimly written
The sweet name of the fay,
With "Guardian of the blue-bell,
That faded yesterday."

I wonder where the dew is,
This blossom used to hold;
Perhaps to-night 'tis falling
Amid the rain drops cold,
Or leaping from some fountain,
'Beneath a moaning tree,'
Or rushing down the river
Toward the restless sea.
I wonder where the sweet is
It yielded to the breeze,
Perhaps 'tis in the night wind
That moans among the trees;
And in the end I wonder
Where all the blue will go,
Up to the sky above us,
Or to the waves below;
Or will the hand of Nature
Collect the colors clear,
And carefully preserve them,
To tint some more next year?

HAPPY END TO A DEBT.

In the fall of 1847, a young man went to New York in quest of employment.—After weeks of unsuccessful search, he found himself without a prospect of work and considerably in debt for board. In despair, he made arrangements to dispose of his clothes by auction, in order to pay his debts, when a letter was sent him containing a twenty-dollar bill, and directing him to the overseer of one of the corporations. The letter requested him to sign a note of hand for the amount loaned, and to place it in a certain unoccupied box in the post office, were it would be called for by the lender. The young man did as directed, and received the situation, the overseer stating that it had been secured for him at the earnest solicitation of a young lady. Years passed away, and all attempts to discover his creditor was unavailing. The young man prospered in business, and at length plighted his affections to an amiable young lady with whom he had been acquainted. On the day before their marriage he received a letter requesting him to call at a certain place and pay the note of twenty dollars, with interest, which he had signed some years before. Anxious to settle an indebtedness which from the mystery of the whole affair had caused him many hours of unhappiness, he hastened to the place indicated, and was ushered by the domestic into the parlor, were to his astonishment he discovered in the person of his unknown benefactor, the lady with whom, upon the next day, he was to unite his earthly fortunes. It was her first business transaction, and the partnership which resulted was a long and happy one, only to be dissolved when the last debt of all—the debt of nature—had to be paid.

THE NOBLE REVENGE.

The coffin was a plain one—a poor miserable pine coffin. No flowers on its top, no lining of rose-white satin for the pale brow; no smooth ribbons about the coarse shroud. The brown hair was laid decently back, but there was the crimped cap, with its neat tie beneath the chin. The sufferer from cruel poverty smiled in her sleep; she had found bread, rest and health.

"I want to see my mother," sobbed a poor child, as the city undertaker screwed down the top.

"You can't—get out of the way, boy; why don't somebody take the brat?"

"Only let me see her one minute," cried the hopeless orphan, clutching the side of the charity box, and as he gazed into the rough face, anguished tears streamed rapidly down the cheek, on which no childish bloom ever lingered. Oh! it was pitiful to hear him cry, "Only once, let me see my mother only once."

Quickly and brutally the hard-hearted monster struck the boy away, so that he reeled with the blow. For a moment the boy stood panting with grief and rage—his blue eyes distended, his lips sprang apart, a fire glittered through his tears, as he raised his puny arm, and with a most unchildish accent screamed, "When I am a man, I'll kill you for that."

There was a coffin and a heap of earth between the mother and the poor forsaken child—a monument, much stronger than granite, built in his boy-heart to the memory of the heartless deed.

The Court House was crowded to suffocation.

"Does any one appear as this man's counsel?" asked the judge.

There was *silence* when *he* finished, until, with lips tightly pressed together a look of strange intelligence blended with haughty reserve upon his handsome features, a young man stepped forward with a firm tread and kindly eye, to plead for the erring and friendles. He was a stranger, but from his first sentence there was a silence. The splendor of his genius entranced—convinced.

The man who could not find a friend was acquitted.

"May God bless you, sir, I cannot."

"I want no thanks," replied the stranger, with icy coldness.

"I—I believe you are unknown to me."

"Man! I will refresh your memory. Twenty years ago you struck a broken-hearted boy away from his mother's poor coffin. I was that poor boy."

The man turned livid.

"Have you rescued me, then, to take my life?"

"No, I have a sweeter revenge: I have saved the life of a man whose brutal deed has rankled in my breast for twenty years. Go! and remember the tears of a friendless child!"

The man bowed his head in shame and went out from the presence of a magnanimity as grand to him as incomprehensible, and the noble young lawyer felt God's smile in his soul forever after.

TRICKS OF A JUGGLER.

The far-famed Robert Heller cannot be satisfied with his legitimate triumphs before an audience, but occasionally does a neat thing for his own amusement, very much to the surprise of those who happen to be present. On Saturday last, while passing an itinerant vender of cheap provisions, Mr. Heller suddenly paused and inquired:

"How do you sell eggs, Auntie?"

"Dem eggs," was the response; "dey am a pickayune apiece—fresh, too, last one of 'em; biled 'em myself, and know dey's fust rate."

"Well, I'll try 'em," said the magician as he laid down a bit of fractional currency. "Have you pepper and salt?"

"Yes, sir, dere dey is," said the sable saleswoman, watching her customer with intense interest.

Leisurely drawing out a neat little penknife, Mr. Heller proceeded very quietly to cut the egg exactly in half, when suddenly a bright, new twenty-five cent piece was discovered lying imbedded in the yolk, apparently as bright as when it came from the mint. Very cooly the great magician transferred the coin to his vest pocket, and taking up another egg, inquired:

"And how much do you ask for this egg?"

"De Lord bress my soul! Dat egg! De fact am, boss, dis egg is worth a dime, shuar."

"All right," was the response; "here's the dime. Now give me the egg."

Separating it with an exact precision that the colored lady watched eagerly, a quarter eagle was most carefully picked out of the center of the egg, and placed in the vest pocket of the operator, as before. The old woman was thunderstruck as well she might have been, and her customer had to ask her price for the third egg two or three times before he could obtain a reply.

"Dar's no use talkin', mars'r," said the bewildered old darkey. "I can't let you hab dat ere egg, nohow, for less dan a quarter. I declare to de Lord I cant."

"Very good," said Heller, whose impurturbable features were as solemn as an undertakers, "there is your quarter and here is the egg. All right."

As he opened the last egg, a brace of five-dollar gold pieces were discovered snugly deposited in the very heart of the yolk, and jingling them merrily together in his little palm, the savant coolly remarked:

"Very good eggs, indeed. I rather like them; and while I am about it, I believe I will buy a dozen. What is the price?"

"I say price!" screamed the amazed daughter of Ham. "You couldn't buy dem eggs, mars'r, for all de money you's got. No! dat you couldn't. I'se gwine to take dem eggs all home, I is, and dat money in dem eggs all 'longs to me. It does dat. Couldn't sell no more of dem eggs, nohow."

Amid the roar of the spectators, the benighted African started to her domicil to "smash dem eggs," but with what success we are unable to relate.

"I SAY, Sambo, can you answer a conumderfrum? Suppposin' I gib you a bottle ob whiskey corked shut with a cork: how would you get the whiskey out widout pullin' de cork or breakin' de bottle?" "I gibs dat up." "Why push de cork in. Yah, yah!"

"FATHER, what does the printer live on?" "Why, my child?" "O, because you said you hadn't paid for your paper for three years." Exit father with a flea in his ear.

FRIDAY AFTERNOON, OCT. 11, 1867.

THE COUNTY.

The result of the election in this county on Tuesday last may be recorded as a glorious event in the history of the Democracy. With an earnest and untiring struggle, the county was carried for Clymer last fall by 216. During the campaign just closed, we had Congressional patronage to overcome, (the Clerk of the House resides here and has a large hand in the direction of Radical affairs,) and had to contend with Pennsylvania Railroad influence, through Simon Cameron and his local man "Friday," McConaughy. Radical speakers, too, were on the stump every night for more than a week, as many as three meetings going on at different points the same evening. Their candidates were likewise busy, stirring up the faithful and begging votes from Democrats.

But all to no purpose. Clymer's majority of 216 *has been increased to* **392** *for Sharswood!—and the whole Democratic ticket is elected by majorities ranging from* 313 *to* 410!! All honor to our gallant Democracy. They went into the fight with the confident belief that a majority of the people of the county would *not* endorse congressional usurpation and equality among the races, and the result has not deceived them. The *white* men of Adams are true to themselves, and the *white*-cause triumphs! "Glory enough for one day!"

THE COMPILER.

The election over, our readers may look for a greater *variety* of matter than we have been able to give during the last month. The importance of the issues involved in the campaign overshadowed everything else, and of course demanded all the space at the command of Democratic and Conservative editors. But, the contest decided, (and so gloriously too,) we are again left space for reading of a miscellaneous character—and this shall be made as entertaining and useful as possible. Whilst our readers will be kept posted in regard to the revolutionary aims and doings of the Radicals, and the efforts made to frustrate them, the news department will keep pace with events, literary matter will have due place, the claims of humor will be recognized, and the agricultural column be attended to with all the care which the editor can bestow upon it—and he flatters himself that his many practical hints during the last twenty odd years have been of some avail in the marked agricultural improvement of Adams county.

No effort will be spared to make the COMPILER a First Class Family Journal. All—men, women and children, in town and country—will find in its ample pages much to entertain and instruct them.

We have of late received many accessions to our previously large list—beside, other almost daily manifestations of satisfaction with the enlargement and general improvement of the paper. Thankful and grateful for these flattering and substantial evidences of appreciation, we would remind those Democrats whose names are not yet on our list, that the placing of them there would afford us very great pleasure. We publish a paper among the very largest in the State, and have a circulation among the largest claimed by country journals; still it can be considerably increased, and that with but trifling effort on the part of our present patrons. Friends, everywhere, give us your aid. Whilst you will help us, (and surely we have always tried to *deserve* such favor,) you will help the "good old cause," which is the cause of Right and Truth, at the same time.

THE MONTANA LEGISLATURE.—The political complexion of the Montana Legislature stands as follows: The Council, which consists of seven members, is unanimously Democratic. The House, which consists of fifteen members, will stand fourteen Democrats and one Republican. On account of misunderstanding in regard to the first and last apportionments, Deer Lodge and Madison counties have elected three members each to the House of Representatives. If the Legislature shall decide in favor of Governor Smith's apportionment, the Legislature will be unanimously Democratic. If in favor of the first apportionment, made by Acting Governor Meagher, then Mr. Irwin, from Madison, will have the honor of being the only Republican in the Montana Legislature. Among the members elect are Samuel Orr, formerly of Missouri, in which State he was the Bell-Everett candidate for Governor in 1860, and beaten by less than 8,000 votes.

STANTON.—A despatch from Washington says: Congress reconvenes in little more than seven weeks, but long before that time the President will have the charges and reasons for suspending Secretary Stanton from the War Department ready for submission to the Senate, as required by the Civil Tenure of Office law. The case made out by the President is an exceedingly strong one, and the Senate will find itself enlightened in matters it little dreams of when it receives the documents in the premises.

THE trial of Jefferson Davis has been set down for November 25th, at Richmond. It is not likely that Chase will preside, as the Supreme Court will open on the first Monday in December.

MRS. Lincoln, widow of the "late lamented," has deposited in the hands of an auctioneer in New York, articles of her wardrobe and jewelry valued at $24,000, which she says she is obliged to sell in order to live "moderately well."

THE GETTYSBURG COMPILER comes to us enlarged to a thirty-two column paper and printed on new type and a power press. It looks handsome, is well edited, and deserves abundant success. Its editor was one of that band of brave spirits who chose rather to go to prison, during the reign of terror under Lincoln, than to give up the principles he had learned to love and cherish as a constitutional Democrat. We trust the Democracy of Adams county will appreciate Mr. Stahle's energy and enterprise by giving him a liberal support.—*Clinton Democrat.*

PERSONAL.—We had a call the other day from our friend Henry J. Stahle, editor and proprietor of the Gettysburg *Compiler*. Mr. S. is a noble specimen of a Democrat and prints one of the soundest as well as the ablest papers on our exchange list. He has recently introduced into his office one of POTTER'S improved Power Presses, and enlarged the old *Compiler* to about the size of the *Mail*. Success say we to men of worth and enterprise such as our friend of the *Compiler*.—*Hagerstown Mail.*

We are indebted to the Hon. Charles R. Buckalew for a copy of the great speech he delivered at Bloomsburg on the 28th of September.

Secretaries, Robert Watson, Wm. K. Turner, A. F. White.

Addressed by H. J. Stahle.

LITTLESTOWN.—The meeting at Littlestown on Saturday evening was a grand rally—a glorious out-pouring of the people. There was a special train from Gettysburg, with some fifty or sixty on board, which number was largely increased at New Oxford, and somewhat at Hanover. The Littlestown Band was out, which, with the martial music from this place, combined to greatly enliven the occasion. A torch-light procession was had from the depot to Philip Hemler's, where the meeting was held. Hon. Wm. McSherry, after a brief but excellent speech, proposed the following list of officers, which was unanimously adopted:

President, Moses Hartman, Esq.
Vice Presidents, George Hesson, Geo. Wintrode, Capt. Wm. Lansinger, Amos Lefever, Esq., Simon S. Bishop, Esq., David S. Bair, Esq., Wm. Rider, Joseph Arentz, Joseph L. Shorb, Esq., Jacob Klunk, James Spalding, George W. Stover, John Ruff, A. J. Bowers, Philip Hann, Esq., Capt. Robert McCurdy, Jacob Brinkerhoff.
Secretaries, Dr. C. W. Benson, John F. McSherry, Esq., Henry H. Hemler, John H. Hinkle, G. B. Yantis, Jacob Heltzel.

HUNTERSTOWN.—A large and spirited meeting was held at the house of Jacob L. Grass, in Hunterstown, on Monday evening. Organized as follows:

President, Frederick Quickel.
Vice Presidents, D. C. Brinkerhoff, Samuel McCreary, John G. Brinkerhoff, Aloysius Marshall, Wm. Thomas, Henry Thomas, Esq., Henry Toot, John Lichty, John G. Gilbert, Henry Mollison, George Grass.
Secretaries, Dr. C. E. Goldsborough, Frederick Criswell, John E. Little, Geo. Hann, Emanuel Kemper.

Ably addressed by E. B. Buehler and W. A. Duncan, Esqs.

GETTYSBURG.—The Democracy of the Borough turned out in large numbers at the Globe Inn, on Monday evening.—The officers of the meeting were:

President, Maj. Jacob Sanders.
Vice Presidents, John Butt, Henry Little, John Kuhn, J. L. Holtzworth.
Secretaries, Emanuel Ziegler, of J., Jacob W. Gilbert, H. G. Wolf.

Maj. Sanders made a brief but telling speech, as did J. C. Neely, Esq., and H. J. Stahle concluded. The meeting adjourned with prolonged cheers for the white man's cause and the white man's ticket, and forming a procession, with martial music at the head, marched as far as the Keystone House, and then, after a short halt, back again, the evening's proceedings closing in the most enthusiastic manner.

COLD SPRINGS.—A meeting was held at the School-house near the Cold Springs, on Monday evening, which was well attended, and manifested a lively spirit in the good work. It was forcibly addressed by Jacob Lott and Robert Watson, and adjourned with cheers. We regret not having received a list of the officers.

INTELLIGENT VOTERS.

A telegram from Richmond stated a few days ago that in voting on the subscription to the Chesapeake and Ohio Railroad, about two thousand negro votes were thrown out owing to the fact *that the voters had forgotten the names they registered by, and handed in votes under different names.*

This is a sample of the intelligence and qualifications of the new "American citizens of African descent" who now rule the South. How do our Radical friends like the picture?

THE Government has commenced prosecutions against the New York Radicals, Cook and Sherwood, who were sent South during the war by Radical Governor Fenton to recruit negroes for the State. They pocketed $600 State and $40 county bounty, from each of 400 nigs—who got nothing. After getting through with these little thieves it is to be hoped the Government will turn its attention to some of the one, two, three and five hundred thousand dollar scamps.

THE Norfolk county, Virginia, Rads held a convention a few days ago and put in nomination one white and two negro delegates. This was too much color, however, for some of the thin-skinned plunder-seekers, and they have bolted and intend to set up another ticket. It's hard to go "agin nater," after all.

THE Springfield *Republican*, Radical, says that the policy of Congress is a failure. The Savannah *Republican*, also Radical, condemns in the severest terms the negro policy toward the South, and warns the nation of the bitter fruits it will gather by adhering to the congressional programme. It gives a solemn warning to the people to rebuke at the polls the Radical traitors and destructives.

RAILROAD COLLISION.—*A Negro Boy Killed and Several Persons Injured.*—Two passenger trains on the Northern Central Railway collided on Friday morning, near Millersburg, Dauphin county, causing a general smash up of the locomotives and completely wrecking the baggage cars. A colored lad from Harrisburg, who was enjoying a "free ride" on the tank of one of the engines, was instantly killed, and some of the engine hands, a baggage master and several passengers, were more or less injured.

ANOTHER NATIONAL BANK "GONE UP."—The Croton National Bank, of New York city, "went up" on Tuesday. Cause, mismanagement and dishonesty, as usual. The liabilities to depositors amount to two hundred and fifty thousand dollars.

A defalcation of forty thousand dollars has occurred in the Atlas National Bank, of Providence, Rhode Island, and the concern is to be wound up.

Another Democratic Victory—Democratic Gain of Five Towns, and on the Popular Vote.

HARTFORD, Ct., October 7.—The Connecticut town elections are favorable so far. The Radicals have gained none as compared with last fall, but the Democrats have gained five towns, viz: New London, Glastenbury, Lyme, Seymour, Killingly. Westmoreland, 1300 for Sharswood—Dem. gain 230.

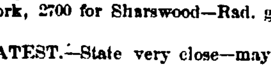
York, 2700 for Sharswood—Rad. gain 180.

LATEST.—State very close—may require the official vote to decide. Geary's majority of 17,178, last year, has been nearly, if not quite, wiped out. ONE FIRE MORE AND THE STATE WILL *CERTAINLY* BE OURS!



THE PHILADELPHIA VICTORY!

SCENES AND INCIDENTS.—The *Age* of Wednesday morning says:—Last night was one never to be forgotten by the Democratic party of Philadelphia. It was one in which everything in the past was forgotten in the glorious victory of to-day. The defeats of the past eight years had no weight in subduing the great happiness that existed in the party. At an early hour an immense crowd assembled in front of the rooms of the Democratic Association, at the corner of Ninth and Arch streets. The scene there witnessed beggars description. As the returns from the several wards were announced, showing great Democratic gains in every ward, cheer after cheer rent the air. The streets were rendered utterly impassable by the immense throng. We saw one individual who walked along the streets laughing as if he were almost a maniac, and the throng around joined in the glad demonstration of victory at last. Hats were thrown in the air, handkerchiefs waved, and enthusiasm scarcely ever felt before pervaded the immense multitude there congregated. A band of music appeared amidst the excitement, followed by more than a regiment of citizens, who gave cheer after cheer for the "white" ticket and the success of the Democratic party. The State returns, showing, with few exceptions, great Democratic gains, were read and received with tumultuous applause. The crowd was almost mad with joy, and continued its demonstrations of delight until a very late hour. Several ward organizations, headed by impromptu bands of music, passed the headquarters and were greeted with great cheering.

About half-past ten o'clock Hassler's Band, followed by a large number of persons, serenaded Judge Sharswood at his residence, in Thirteenth street, below Spruce. The Judge appeared at his second story window and said that the result was not a surprise to him; that he knew what the result must be, if the sober second thought could get expressions from the free people of Philadelphia. He thanked the voters for the kindness they had evinced in thus calling upon him, and trusted that in a faithful performance of duty he would merit the kindness they had shown for him. The band also serenaded Colonel Lyle at his residence, on Tenth street, below Pine, but he was not at home. At the Democratic Club House, at Ninth and Arch streets, Colonel Lyle appeared, however, and addressed the immense multitude, thanking them for the great honor which he had received at their hands, and trusting that by a faithful performance of duty he would merit the confidence they had reposed in him.

Towards morning the crowds on our streets dispersed, retiring to their beds with the conviction that right had triumphed.

Over exertion, either of body or mind, produces debility and disease. The usual remedy is to take some stimulant, the effect of which is the same as giving a tired horse the whip instead of oats. The true way is to fortify the system with a permanent tonic like the Peruvian Syrup, (a protoxide of iron,) which gives strength and vigor to the whole system.

JAMES M. Murphy, a colored man from Nashville, Tenn., was to-day appointed by the Sergeant-at-Arms of the Senate as a member of the Capitol police force.

Was there no lame white soldier who could have filled this place?

A MAN has just died in France, at the age of eighty-four, who helped to guillotine Maximilian Robespierre.

OHIO.

Democratic Gains Everywhere!—The Radical majority of 40,000 Cut Down to probably less than Nothing!

Wednesday's despatches from Ohio state that both parties claim the election. The Radical majority of 40,000 has been *slashed* down to nothing, and probably *less*. The chances of Thurman, Democrat, for Governor, are regarded as quite as good as Hayes's, Radical. The Legislature will be close. The negro suffrage amendment is defeated by FORTY OR FIFTY THOUSAND! A glorious day's work!

LATEST.—The Legislature is certainly Democratic, and though the vote on Governor is close, it is thought that Thurman's chance is the best. The *white* Buck Eyes have done nobly!

Clarke's Self-Setting Animal Trap.—Our attention has been lately called to this new patent, and we have no hesitancy in saying that we regard it among the most important and useful inventions of the present day, and one which entirely eclipses everything we have ever before seen in this line.

The Trap is made of common oak, in the form of an oblong box, covered on top by a wire grate so as to admit light, and lined with strap iron.

There are three separate compartments. At either end of compartment No. 1, where the animal enters, there are iron doors, which are held in a horizontal position at the top of the Trap by two sheet-iron straps connected with an incline plane in compartment No. 2, and a spring-board in bottom of compartment No. 1, where the bait is placed.

The Trap being set, these doors are entirely out of sight, and when the animal—being attracted by the bait—approaches either end, its view is unobstructed, and if in day-time, by the aid of the light introduced through the grate at the top, it can see clear through, and consequently can have no hesitancy in entering.

The moment it strikes the spring-board in compartment No. 1, where the bait is placed, both doors close, and its egress from the Trap is thus prevented; but endeavoring to get out it passes through a hole in a partition between compartment Nos. 1 and 2, and ascends the inclined plane before mentioned, up which it moves until passing the centre, when its weight reverses the plane, and by this action it becomes fixed and prevents the retreat of the animal, while at the same time both doors of compartment No. 1 are again opened, and the Trap is ready to receive another.

The animal still in compartment No. 2, and anxious to get out, passes through an apperture in the partition between compartments Nos. 2 and 3, and enters a a large chamber, where it remains secure until released by its captor.

The Trap can be made any size or strength desired, and is not confined to any particular species of animal, but applies equally to all which men are in the habit of trapping, from the common rat to the intrepid and ferocious king of wild beasts. The Trap that is ordinarily sold is made large enough to catch Mice, Rats, Musk-rats, Rabbits, Opossums, Minks, Raccoons, &c. The weight of an ordinary mouse is sufficient to work a Trap large enough to catch a lion, so perfect is it in its construction.

On Monday night of the present week a small model Trap was set at a mill near Petersburg, this county, and nine rats caught; last night it was set in the Oats House connected with the Keystone Hotel stables, of this town, and eleven rats caught.

In this country, where rats have become so numerous, we think this will be recognized as a great desideratum; and if properly applied, will prevent the destruction of thousands of dollars worth of property annually.

Those who are annoyed most by rats and musk-rats, will doubtless—after giving it a trial—know best how to appreciate it, as the number caught in a single night is governed only by the size of the Trap and the number of rats in the locality.

A company is now forming in this county, who propose manufacturing and selling the Trap throughout the eastern part of this State. 1t

School Exhibition at East Berlin.—Mr. Editor: Our usually quiet town was enlivened during the last week by exercises no less agreeable than interesting and instructive. Our enterprising townsman, Mr. J. C. Hildebrand, who has been teaching school in our village during the past summer, gave an exhibition, for the purpose of affording an opportunity to our citizens of judging of the proficiency to which his pupils had attained. The exercises consisted of dialogues, speeches, vocal and instrumental music, and were conducted in such a manner as to give general satisfaction. The young folks acquitted themselves admirably, and where all did well, it would perhaps be invidious to mention the efforts of particular individuals. The "Citizens' Brass Band" of this place was present and enlivened the occasion by a number of very suitable airs. The house was crowded, and indeed many had to content themselves by remaining on the outside of the building. The manner in which the exercises were conducted, the pleasure afforded to the community, the good order observed on the occasion, not only commend themselves to the consideration of the friends of education, but reflect deserved credit upon the gentleman who has for months been "training the young idea how to shoot." He has given instruction not only in those branches ordinarily taught in our schools, but has devoted much attention to the musical education of his pupils, as was evinced upon the occasion to which we have alluded. With the hope that our young friend will meet with continued success, and receive merited encouragement in his praise-worthy efforts, we will close this random sketch.

A FRIEND OF EDUCATION.
East Berlin, Oct. 7, 1867.

Barns Burnt.—The barn on Col. McClure's farm, occupied by Mr. Linn, one mile north of Chambersburg, was destroyed by fire on Wednesday morning, between 7 and 8 o'clock. Large quantities of hay and grain were consumed with it. The fire is said to have originated from a lantern used in the barn early in the morning and thoughtlessly left there. No insurance.

The barn of Mr. Wm. Shaw, in Taneytown district, Md., was burnt on the 30th ult., with his entire crop for the year. Incendiarism, it is supposed.

The above losses are sincerely regretted by all who know the worthy owners.

DOGS are made to carry about advertising cards in Paris.

Local Department.

TOWN, COUNTY AND SURROUNDING COUNTIES.

The COMPILER is delayed a few hours to-day, in order to give the official vote of the county.

The Fair.—The premiums awarded at the Agricultural Fair recently held here, are published on our first page. The list is extensive, and from it the reader will be able to get a fair idea of the size and character of the exhibition.

Taken all in all, the Fair was a grand success, comparing favorably, we understand, with those in our neighboring large counties of Cumberland and York. Whilst in many respects, ours was fully equal to them, it was in not a few superior. In regard to grounds and track, there seems to be no difference of opinion. The horsemen, who ought to know best, pronounce this infinitely the best track in the southern tier, with none to surpass it in the State. Almost everywhere they challenge each other to meet on the "Gettysburg Track."

The exhibition of blooded horse stock was very creditable, whilst the number of "fast horses" entered was unusually large. Draught horses were not as plenty as was expected, owing probably to the busy season with our farmers. We look for a full exhibition in this line next year.

The display of blooded cattle was much admired, as it deserved to be. All the animals were among the most choice of their respective breeds. Mt. St. Mary's College, near Emmittsburg, contributed about a dozen from its magnificent herd, which, of course, attracted general attention. The native cattle department, though prime in quality, was not as full as it ought to have been. Will be "all right" next fall.

There were large numbers of hogs and sheep, as good as can be produced anywhere; whilst the poultry department had an excellent variety.

Of agricultural machinery there was a fine display, embracing the usual entries, with quite a number of late inventions of much apparent value. The agricultural productions occupied a large amount of space, and were superior—but Adams can do better yet, and *will*.

The display of fancy and useful articles in the main building was almost endless, and attracted unabated attention during the entire four days. The hall, extensive as it is, was jammed with visitors from morning till night, so many beautiful and meritorious things were there to see.

The attendance on Wednesday and Thursday was probably ten thousand a day, (city reporters might say twenty thousand.) The receipts for the four days were in the neighborhood of $4,000, and the expenses—premiums, door-keepers, police, &c.—over $1,000.

The exhibition was encouraging in every respect. The President, Mr. Herbst, assisted by the Board, worked hard to get the affair up in a shape that would be creditable to the town and the county, and the universal voice is that they succeeded. Let the general effort of managers and people henceforth be, to make each succeeding Fair better than the last, and it will be done.

Burglary.—The store of Joseph S. Gillespie, on York street, was broken into on Wednesday night, and robbed of fancy articles, sugar, &c., to the value of two hundred dollars. An entrance was effected through a window in the ware room.

Big Apples.—Our townsman, Mr. George Geyer, has placed on our table three monster apples, "Tulpehockens," the weight of the largest being three-quarters of a pound, and of the whole two and a half pounds! These are decidedly the finest apples we have seen this season. Who can beat them? Mr. Geyer has our thanks.

Services.—Rev. Mr. Gladstone will preach in the U. Presbyterian Church in this place, on Sunday morning next. Communion services will be held in the same church on Sunday morning, the 10th—Rev. Mr. Ferguson officiating.

Preachers.—The East Pa. Synod of the Lutheran Church met last week at Pottsville, Rev. Dr. Valentine, of this place, presiding. Messrs. Griffith, Hilpot, Billheimer and Grossman, lately of the Seminary here, were licensed as ministers of the gospel. Mr. Grossman takes charge of the New Chester congregation, in this county, it is said.

We notice also that S. A. Hedges, Mr. A. Fair and M. Colver, lately of the Seminary, have been licensed to preach the gospel—the first two by the Melancthon Synod, and the latter by the Allegheny Synod.

Rev. A. J. Hesson, late of the Seminary, goes to Topeka, Kansas.

The resignation of Rev. B. M. Schmucker, as pastor of St. John's Lutheran Church, at Easton, has been accepted by the congregation. We understand that Mr. S. has accepted a call from one of the Lutheran churches at Reading, Pa.

Accident.—While the workmen were recently engaged at work in the ore bank on the farm of Mr. Henry Schwartz, in Union township, a portion of the embankment caved in, falling upon one of the men, whose name we have not ascertained. The unfortunate man had a pick in his hand, and in endeavoring to escape, fell upon the sharp end of the pick, inflicting a painful wound in his side.

The Grove Fortune.—The Groff or Grove "fortune" in Germany turns out to be a myth. The U. S. Minister in Holland writes to Secretary Seward that he has made inquiry in regard to the $75,000,000 reported to have been left to the decendants of Hans Graff, and "finds no foundation for the rumors."

S. S. Convention.—A Sabbath School Convention is to be held in this place in November—to continue three days.

Morning Glory Stove.—Col. C. H. Buehler has got the agency for the sale of this famous Stove, which is producing so great sensation throughout the country. For Parlor, Saloon, Counting House, Office, &c., it stands unrivalled. It is a base-burner, gas consuming, and illuminating—three combinations essential to economy, comfort and beauty. He has just received a fresh supply at his Ware-Rooms on Carlisle street. Call and see it, with a great variety of other stoves of various sizes and patterns. 1t

Job Printing.—We are prepared to do *every kind* of Job Printing, in the *very best* manner. With all the late and fashionable styles of type, and any quantity of other material and machinery, including one of Potter & Co's. large last-improved Power Presses, this establishment is prepared to do work in the most acceptable manner. Try us!

Sale Cryer.—A. W. Flemming has taken out license as Sale Cryer, and offers his services to the public on reasonable terms. 1t

Shaeffer's new Gallery at Hanover, is the place to have your Pictures taken—none better, none cheaper. Money refunded if not satisfactory.

Premium.—The thorough bred horse, "Cashier," belonging to Dr. T. T. Tate, of this place, took the highest premium ($25) for the finest bred horse at the Cumberland County Agricultural Exhibition, last week.

Brass Band.—The Brass Band recently organized in New Oxford received their instruments last week. They were purchased in Baltimore, and cost $440. The set embraces ten pieces. Prof. Gundrum has been selected to teach the Band.

Always sure to cure Dyspepsia.—It removes the cause, therefore removes the disease. Its effects are instantaneous—don't take 15 minutes. Its results are permanent and lasting. Coe's Dyspepsia Cure should have a home in every household.

SPECIAL NOTICES.

Wistar's Balsam of Wild Cherry.

Coughs, Colds, Bronchitis, Asthma, Croup, Whooping Cough, Quinsy, and the numerous as well as dangerous diseases of the Throat, Chest and Lungs, prevail in our changeable climate at all seasons of the year; few are fortunate enough to escape their baneful influence. How important to have at hand a certain antidote to all these complaints. Experience proves that this exists in Wistar's Balsam to an extent not found in any other remedy; however severe the suffering, the application of this soothing, healing and wonderful Balsam at once vanquishes the disease and restores the sufferer to wonted health.

MR. JOHN BUNTO, Of Baldwin, Chemung county, N. Y.—writes: "I was urged by a neighbor to get one bottle of the Balsam for my wife, being assured by him that in case it did not produce good effects, he would pay for the bottle himself. On the strength of such practical evidence of its merits, I procured a bottle. My wife at this time was so low with what the Physicians termed Seated Consumption as to be unable to raise herself from the bed, coughing constantly and raising more or less blood. I commenced giving the Balsam as directed, and was so much pleased with its operation that I obtained another bottle, and continued giving it. Before this bottle was entirely used, she ceased coughing and was strong enough to sit up. The fifth bottle entirely restored her to health, doing that which several Physicians had tried to do but had failed."

SCROFULA.

Dr. LUGOL, of Paris, one of the most eminent Chemists of Europe, said: "The most astounding results may be anticipated when Iodine can be dissolved in pure water." Dr. H. Anders, after fifteen years of scientific research and experiment, has succeeded in dissolving one and one-quarter grains of Iodine to each fluid ounce of water, and the most astounding results have followed its use, particularly in Scrofula and diseases therefrom. Circulars free.

Dr. H. Anders' Iodine Water is for sale by J. P. DINSMORE, 36 Dey Street, New York, and by all Druggists.

What Every One Wants.

A good, reliable medicine that will be on hand when required, and never fails when called on. That is now to be obtained in Dr. Tobias' Celebrated Venitian Liniment. Many thousands call it the Wonder of the Age, as it does all that is represented and more. It cures Diarrhea, Dysentery, Colic, Spasms, Vomiting, Croup, and Seasickness as surely as it is used, and is perfectly innocent to take internally, even in double the quantity named in the directions; and as an external remedy for Chronic Rheumatism, Cuts, Bruises, Old Sores, Mumps, Toothache, Headache, Sore Throat, Sprains, Insect Stings, Pains in the Back, Chest, and Limbs, thousands have testified to, and their certificates can be seen by any one at the Doctor's Depot, 56 Courtlandt street, New York. Hundreds of physicians use it in their practice. It has been introduced since 1847, and hundreds who now have it in their houses, say they would not be without it even if it was $10 per bottle. Every drop is mixed by Dr. Tobias himself, and can be depended on. Only 50 cents and $1 per bottle. Sold by Druggists. Depot, 56 Courtlandt st., New York.

The Warm Season and Its Warnings.

Disease is stalking among us. The warm season warns us all to look well after our own constitution, for little do we know the moment we may be seized with sickness. Medicine is useful at all times, if the prescriptions are worthy of that due consideration, so much demanded by our natures. Malarious maladies must be overcome, and whatever is taken, must work a salutary effect upon the Liver. This is very essential, and why Radway's Regulating Pills are without precedent. No medicine like them. No poisonous drugs in their ingredients—but a purely vegetable compound, well coated with gum, so as to make them tasteless to the palate. They act upon the Bowels thoroughly, and so aid the digestive apparatus to prime the most sluggish. They help the "inner man" in various forms and ways, overcome what mercurial properties destroy, and save lives where desperate medication throws them away. Second to none, Radway's Regulating Pills are the surest remedy for diseases like unto Asthma, Vertigo, Hysteria, Dyspepsia, Fevers, &c., ever introduced to the public. They control the Liver to a wonderful extent, revive life in old persons, and give general satisfaction to the patient of either sex. They are tasteless, also vegetable in extract, are sugar coated and their virtues, their efficiency are known world-wide.

DR. DUPONCO'S GOLDEN PERIODICAL PILLS FOR FEMALES. Infallible in correcting irregularities, Removing Obstructions of the Monthly Turns, from whatever Cause, and always Successful as a Preventive.

It is now over thirty years since the above celebrated Pills were first discovered by Dr. DUPONCO, of Paris, during which time they have been extensively and successfully used in most of the public institutions, as well as in private practice, of both hemispheres, with unparalleled success, in every case, and it is only at the urgent request of the thousands of ladies who have used them, that he is induced to make the Pills public for the alleviation of those suffering from any irregularities whatever, as well as to prevent an increase of family where health will not permit it.

ONE PILL IS A DOSE.

Females peculiarly situated, or those supposing themselves so, are cautioned against using these Pills while in that condition, lest they invite miscarriage, after which admonition, the Proprietor assumes no responsibility, although their mildness will prevent any mischief to health; otherwise the Pills are recommended as a MOST INVALUABLE REMEDY for all those afflicting complaints so peculiar to the sex.

ONE BOX IS SUFFICIENT.

10,000 Boxes have been sold within Two Years. SCHENCK'S SEAWEED TONIC.

This medicine, invented by Dr. J. H. SCHENCK, of Philadelphia, is intended to dissolve the food and make it into chyme, the first process of digestion. By cleansing the stomach with Schenck's Mandrake Pills, the Tonic soon restores the appetite, and food that could not be eaten before using it will be easily digested.

Consumption cannot be cured by Schenck's Pulmonic Syrup unless the stomach and liver is made healthy and the appetite restored, hence the Tonic and Pills are required in nearly every case of consumption. A half dozen bottles of the SEAWEED TONIC and three or four boxes of the MANDRAKE PILLS will cure any ordinary case of dyspepsia.

Dr. SCHENCK makes professional visits in New York, Boston, and at his principal Office in Philadelphia every week. See daily papers of each place, or his pamphlet on consumption for his days for visitation.

Please observe, when purchasing, that the two likenesses of the Doctor, one when in the last stage of Consumption, and the other as he now is, in perfect health, are on the Government stamp.

Sold by all Druggists and Dealers, price $1.50 per bottle, or $7.50 the half dozen. All letters for advice should be addressed to Dr. Schenck's Principal Office, No. 15 North 6th Street, Philadelphia, Pa.

HANGING OF THE DOG RIVER NEGROES.

From the Mobile Evening News.

A large number of people crowded the jail yard to-day to witness the hanging of Robinson, Richardson and Grant, the three negroes sentenced to death by Judge Chamberlain at the last term of the City Court. Long before 10 o'clock large number of negroes assembled in front of the jail, and the yard, at the time of the execution, was so densely crowded that the police and military had great difficulty in keeping open the space about the scaffold. Of course, many of our readers are familiar with the facts developed in the trial of these negroes, but for the benefit of those who are not, we give the following synopsis: Mr. Fred. Peters, an industrious and well known white man, residing about ten miles from the city, in a fork of Dog River, was preparing to retire for the night, when his house was suddenly and violently entered by four negroes. Mr. Peters's family, consisting of a wife and four children, were engaged in evening prayers at the time. The negroes were more or less disguised. They demanded from Mr. Peters his money, and received from him three dollars and a half, all that he had in his pocket. Before giving them this money, Mr. Peters offered resistance, but was unarmed, while the negroes were amply supplied with firearms, and found that he was unable to contend with the robbers. After getting this money they insisted upon his showing them where the remainder of his money was concealed, and he refusing to do this, they seized his wife and searched her person in the most brutal manner. They found upon her $1,400 in gold and paper money. After getting this further supply of money, they commenced searching the house for more. They broke up all of the furniture, and tore up a number of the floor planks, but did not succeed in discovering anything. In the meantime Mr. Peters became restive, and one of the negroes fired several shots at him. Fortunately, none of them took effect, and one of the brutes took a position in front of Mr. Peters, and with a cocked and loaded pistol presented at his breast, kept him from moving during the greater part of the four hours they remained in the house. He was held passive to look upon the violation of his wife and his daughter by three of the four ruffians. The daughter was only twelve years of age, and the knife of the negroes was called into requisition. After doing whatever they pleased in the house, they finally left, and for several days no arrest was made, and no clue could be obtained by the police. Finally, on the 3d of June, Ulysses S. Grant was arrested; on the 8th of the same month Jim Richardson was also arrested, and shortly afterwards Charles Robinson was in the guard house. All three of these negroes were identified by the Peters family, before the City Court, as having been members of the gang that perpetrated the outrage, and they were convicted by a jury and sentenced to be hanged on the 30th of August. But as is known, the Governor, to whom communications had been forwarded by several city officials, postponed the day of hanging for four weeks. Another of these negroes, Bob Smith, was arrested by Colonel Dimon in New Orleans, but through some legal quibble escaped. As the hatchet fell and the unfortunate men were launched into eternity, a piercing scream was heard from the crowd, followed by a scene of wild confusion. Two or three negro women fell over in seeming convulsions, and were borne, kicking and struggling, through the seething mass to the gate. Beyond this, no disturbance or display was made by those present.

THE UNION PACIFIC RAILROAD CO.

THEIR FIRST MORTGAGE BONDS AS AN INVESTMENT.

THE rapid progress of the Union Pacific Railroad, now building west from Omaha, Nebraska, and forming, with its western connections, an unbroken line across the continent, attracts attention to the value of the First Mortgage Bond which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?" Next, "Are they a profitable investment?" To reply in brief:

1st. The early completion of the whole great line to the Pacific is as certain as any future business event can be. The Government grant of over twenty million acres of land and fifty million dollars in its own bonds practically guarantees it. One fourth of the work is already done, and the track continues to be laid at the rate of two miles a day.

2d. The Union Pacific Railroad bonds are issued upon what promises to be one of the most profitable lines of railroad in the country. For many years it must be the only line connecting the Atlantic and Pacific; and being without competition, it can maintain remunerative rates.

3d. 425 miles of this road are finished, and fully equipped with depots, locomotives, cars, &c., and two trains are daily running each way. The materials for the remaining 92 miles to the eastern base of the Rocky Mountains are on hand, and it is under contract to be done in September.

4th. The net earnings of the sections already finished are *several times greater* than the gold interest upon the First Mortgage Bonds upon such sections, and if not another mile of the road were built, the part already completed would not only pay interest and expenses, but be profitable to the Company.

5th. The Union Pacific Railroad bonds can be issued only as the road progresses, and therefore can never be in the market unless they represent a *bona fide* property.

6th. Their amount is strictly limited by law to a sum equal to what is guaranteed by the U. S. Government, and for which it takes a *second lien* as its security. This amount upon the first 517 miles west from Omaha is only $16,000 per mile.

7th. The fact that the U. S. Government considers a second lien upon the road a good investment, and that *some* of the shrewdest railroad builders of the country have already paid in five million dollars upon the stock (which is to them a third lien,) may well inspire confidence in a first lien.

8th. Although it is not claimed that there can be any better securities than Governments, there are parties who consider a *first mortgage* upon such a property as this the very best security in the world, and who sell their Governments to reinvest in these bonds—thus securing a greater interest.

9th. As the Union Pacific Railroad bonds are offered for the present at 90 cents on the dollar and accrued interest, they are the cheapest security in the market, being more than 15 per cent. less than U. S. Stocks.

10th. At the current rate of premium on gold, they pay

Over Nine per Cent. Interest.

The daily subscriptions are already large, and they will continue to be received in New York by the

CONTINENTAL NATIONAL BANK, 7 Nassau St.,

CLARK, DODGE & CO., Bankers, 51 Wall St.,

They will also be sent by mail from the Company's Office, No. 20 Nassau Street, New York, on application. Subscribers will select their own Agents in whom they have confidence, who alone will be responsible to them for the safe delivery of the bonds.

PROOFS OF THE SUPERIOR QUALITY

OF THE

AMERICAN WATCH,

MADE AT

WALTHAM, MASS.

The American Watch Company, of Waltham, Mass., respectfully submit that their Watches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more easily kept in order and repaired than any other watches in the market. They are simpler in structure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 125 to 300 pieces, while in an old English watch there are more than 700 parts. How they run under the hardest trial watches can have, is shown by the following letter:

PENN. RAILROAD COMPANY.

OFFICE OF THE GENERAL SUPERINTENDENT,

ALTOONA, PA., 15 Dec., 1866.

Gentlemen: The watches manufactured by you have been in use on this railroad for several years by our enginemen, to whom we furnish watches as part of our equipment. There are now some three hundred of them carried on our line, and we consider them good and reliable time-keepers. Indeed, I have great satisfaction in saying your watches give us less trouble, and have worn and do wear much longer without repairs than any watches we have ever had in use on this road. As you are aware we formerly trusted to those of English manufacture, of acknowledged good reputation; but as a class they never kept time so correctly, nor have they done as good service, as yours.

In these statements I am sustained by my predecessor, Mr. Lewis, whose experience extended over a series of years. Respectfully,

EDWARD H. WILLIAMS,

General Superintendent.

American Watch Co., Waltham.

We make now five different grades of watches, named respectively as follows:

Appleton, Tracy & Co.,	Waltham, Mass.
Waltham Watch Company,	Waltham, Mass.
P. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Boston, Mass.
Home Watch Company,	Boston, Mass.

All of these with the exception of the Home Watch Company, are warranted by the American Watch Company to be of the best material, on the most approved principle, and to possess every requisite for a reliable time-keeper. Every dealer selling these Watches is provided with the Company's printed card of garantee, which should accompany each Watch sold, so that buyers may feel sure that they are purchasing the genuine article. There are numerous counterfeits and imitations of our Watches sold throughout the country, and we would caution purchasers to be on their guard against imposition.

Any grades of Waltham Watches may be purchased of Watch Dealers throughout the country.

PRIME HAMS, first quality, and reasonable in price, can be had at KALBFLEISCH'S.

FIGHT BETWEEN ELEVEN HUNDRED HORSES.

Southey, in his "History of the Peninsular War," relates the following:

"Two of the Spanish regiments which had been quartered in Funen were cavalry, mounted on fine black Andalusian horses. It was impossible to bring off these horses—about eleven hundred in number—and Romano was not a man who could order them to be destroyed; he was fond of horses himself, and knew that every man was attached to his beast, which had carried him so far, and so faithfully. Their bridles were therefore taken off and they were turned loose upon the beach. A scene ensued such as was never before witnessed.—They became sensible that they were no longer under the restraint of any human power. A general conflict ensued, in which, retaining the discipline they had learned, they charged eached other in squadrons of ten or twelve together, then closely engaged, striking with their fore feet, and biting and tearing each other with a most ferocious rage, and tramping over those who were beaten down, 'till the whole shore in the course of an hour, was strewn with the dead and disabled. Part of them had been set free on rising ground at a distance. They no sooner heard the roar of battle, than they came thundering down over the hedges, and catching the contagious madness, plunged into the fight with equal fury. Sublime as the scene was, it was horrible to be long contemplated, and Romano, in mercy, gave orders to destroy them.—But it was found too dangerous to attempt this, and after the last boat had quitted the beach, the few horses that remained were still engaged in the dreadful work of mutual destruction."

EAST WIND.

Why should the wind coming from the east over an ocean of water depress the human body, while that which comes from the west across a continent enlivens the spirit and gives courage and vigor? Be this as it may, it seems as if some people never felt any wind that was not east. They are always "out of sorts." I met one of these men awhile ago, a farmer, who raised all manner of crops. It was a wet day, and I said:

"Mr. Nayling, this rain will be fine for your grass crop."

"Yes, perhaps; but it is bad for corn, and will keep it back. I don't believe we shall have a crop."

A few days after this, when the sun was shining hot, I said:

"Fine sun for your corn, sir."

"Yes, pretty fair, but its awful for the rye. Rye wants cold weather."

Again on a cold morning, I met my neighbor, and said:

"This must be capital for your rye, Mr. Nayling."

"Yes, but it's the very worst weather for corn and grass. They want heat to bring them forward."

So the man lives in a perpetual east wind. Nothing suits him and it would be impossible for Providence to give him weather about which he would not grumble.

A CONFIRMED GRUMBLER.

The following will bear re-publishing occasionally:—

Some time ago there lived in Edinburg a well known grumbler, named Sandy Black, whose often recurring fits of spleen or indigestion produced some amusing scenes of senseless irritability, which were highly relished by all except the brute's good, patient little wife. One morning Sandy rose bent on a quarrel. The haddies and eggs were excellent, done to a turn, and had been ordered by himself the previous evening: and breakfast passed without the looked for cause of complaint.

"What will you have for dinner, Sandy?" said Mrs. Black.

"A chicken, madam," said Black.

"Roast or boiled?" asked the wife.

"Confound it, madam, if you had been a good and considerate wife, you would have known before this what I liked," growled Sandy, and, slamming the door behind him, left the house.

It was in the spring, and a friend who was present heard the little wife say,

"Sandy's bent on a disturbance to-day; I shall not please him, do what I can."

The dinner-time came, and Sandy and his friend sat down to dinner; the fish was eaten in silence, and, on raising the cover of the dish before him, in a towering passion he called out,

"Boiled chicken! I hate it, madam. A chicken boiled is a chicken spoiled."

Immediately the cover was raised from another chicken, roasted to a turn.

"Madam, I won't eat roast-chicken," roared Sandy; "you know how it should have been cooked!"

At that instant a broiled chicken, with mushrooms, was placed on the table.

"Without green peas!" roared the grumbler.

"Here they are, dear," said Mrs. B.

"How dare you spend my money in that way?"

"They were a present," said the wife, interrupting him.

Rising from his chair and rushing from the room, amid a roar of laughter from his friend, he clenched his fist and shouted, "How dare you receive a present without my leave?"

A WELSH girl once applied to a clergyman to be married. The clergyman asked her what property her husband possessed. The answer was:

"Nothing."

"And are you any better off?" he asked.

The reply was in the negative.

"Then why in the name of common sense do you dare to marry?"

"Your reverence," said the girl, "I have a blanket and Jack has a blanket; by putting them together we shall both be gainers."

The clergyman had nothing more to say.

A SCHOOL boy being asked to define the word "admission," said it meant twenty-five cents. "Twenty-five cents," echoed the school master, "what sort of a definition do you call that?" "I don't know," sulkily replied the boy, "but I'm sure it says so on the advertisement down there at the show." "Yes," said another boy "and children half price."

JOB printing!—"Job printing!" exclaimed Mrs. Partington the other day as she peeped over her spectacles at the advertising page of a country paper.—"Poor Job! they've kept him printing week after week ever since I larnt to read; and if he wasn't the patientest man that ever was he never would have stood it so long no how."

PACIFIC GUANO.

OFFICE OF GENERAL AGENCY 71 SOUTH STREET, BALTIMORE, MD.

JOHN S. REESE & CO.,

Wholesale Agents for Company.

THE very extended use of this Guano throughout the country renders it unnecessary to say more this season, than its *composition* and *quality* are precisely the same as that heretofore sold by us for the Company.

We have sold this Guano from the beginning under a regular system of rigid inspection, at an expense to the Company of many hundreds of dollars annually. This is done for the *protection* alike of the *consumer* and the *Company*, as it is manifest to all who understand the trade in fertilizers, that it cannot be safely conducted on any other principle. The importance and extent of the trade demands this protection.

We are prepared to exhibit Dr. A. Snowden Piggot's *certificate of inspection* for every cargo sold. Consumers must observe the name of JOHN S. REESE & Co. branded on the bags, none other genuine.

TO OUR CUSTOMERS.

WE take pleasure in announcing to Dealers in Fertilizers, and the Agricultural public, that we have within the past year increased our facilities for the manufacture of our RAW BONE PHOSPHATE, to an extent unequalled by any other House in the United States or Europe. These facilities not only include the enlargement of our old established works in Philadelphia, known as the DELAWARE RIVER AGRICULTURAL CHEMICAL WORKS, but also the purchase of extensive and well stocked works at Chicago, Ill., with all the necessary machinery, cars, &c., to conduct the business. This establishment alone has produced, annually, over 5,000 tons of dried Bones and Meat, and is capable of being largely increased. We desire, by the closest supervision, to conduct these two concerns so that our customers will derive a practical benefit from their consolidation, in obtaining a MANURE which shall maintain a standard and uniform quality, and at the lowest possible price.

SEWING MACHINES.

The Grover & Baker.—The Best in Use.

THESE Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at *all the late State Fairs*, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money*, and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

Needles and Thread will also be supplied.

ESTEY'S CELEBRATED

COTTAGE, HARMONIC AND BOUDOIR

ORGANS AND MELODEONS.

These Instruments stand unrivalled by anything found in this country or in Europe, as is admitted by all impartial judges. The most eminent Pipe Organ Builders and Performers, the last to discover excellence in reed Tone, pronounced them vastly superior to all others for exceedingly quick articulation and round tone, the essential feature in instruments of this class. We invite the severe scrutiny and criticism of all.

PATENT VOX HUMANA TREMOLO.

This late and most wonderful invention (so acknowledged by all leading artists) will be found only in the Estey Instruments. In attempting to describe the effect of this stop, we are at loss for language. Its beauties cannot be written, but must be heard to be appreciated. By this stop an ordinary performer can produce an effect which requires a life time of practice for an artist upon a violin. It entirely changes the reed Tone, giving the sympathetic sweetness of the human voice, making it so melodious and pure that it never fails to enchant the listener.

THE HARMONIC ORGAN

for Churches, Public Halls and Parlors has a powerful sub-Bass with independent reeds, Harmonic attachment and Vox Humana Tremolo, and is believed to be the most powerful reed organ made, being nearly equal to a Pipe Organ of three times the cost.

All instruments warranted for five years.

BRASS BANDS supplied with instruments and music at reasonable terms.

A liberal discount allowed for Churches and Sabbath Schools.

"Some of these exercises are specially beautiful as well as useful, a mingling of the *dulce et utile*, which secures the interest as well as the improvement of the student. The various styles developed in these exercises render them invaluable in an educational point of view, as they tend to enlarge the intelligence and appreciation, and at the same time form the taste of the pupil. They must be studied carefully with reference to the innumerable marks of expression and forms of ornamentation. Upon the minute accuracy with which these are accomplished depends the actual sterling advancement of the pupil, any evasion or sluring in these respects is time and effort wasted, while, on the other hand, a close and patient investigation, and a minutely faithful execution of them, will give unexpected power and faculty, and open to the student the means and resources by which great artists produce their most brilliant and profound effects."—*Watson's Art Journal.*

BRINKERHOFF'S

Corn Sheller, Separator and Cleaner.

THE undersigned would inform the Agricultural public that he has purchased from the Patentee of this extraordinary machine, the Patent Right for the States of Pennsylvania and Maryland.

Brinkerhoff's Corn Sheller, Separator and Cleaner, is pronounced the best machine of the kind in this country. And in proof, it may be mentioned that the "Advisory Committee appointed to select Implements for exhibition at the Universal Exposition in Paris, in 1867, have selected this Sheller as the best in America," and at the request of J. C. Derby, U. S. Agent, a machine has been shipped to Paris for exhibition.

The fact may also be stated that at the great trial of Agricultural Implements, at Auburn, N. Y., in July last, under the auspices of the New York State Agricultural Society, the Brinkerhoff Corn Sheller, Separator and Cleaner was reported by one of the most competent Committees as the best Corn Sheller out. They say, "We have carefully examined and thoroughly tested this machine, and have no hesitation in pronouncing it *the best Corn Sheller we ever saw.*" The report is signed by such men as John Stanton Gould, President N. Y. State Agricultural Society; B. P. Johnson, Secretary to same; Solon Robinson, Agricultural Editor N. Y. Tribune, S. Edwards Todd, Agricultural Editor N. Y. Times.

From among many complimentary newspaper notices, the following, from the New York *Observer*, is deemed sufficient:

"Among all the Hand Corn Shellers made in New York and Albany—and one single firm manufactures more than 10,000 annually—not one can enter the circle with the Sheller just invented by J. Brinkerhoff, Auburn, New York. It shells, separates and cleans, rapidly and easily, at one operation, as fast as the ears can be put into the hopper."

The undersigned is now prepared to dispose of COUNTY RIGHTS. He will have SHELLERS ready for sale in the course of a month's time.

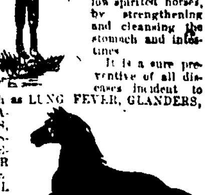
FOUTZ'S

CELEBRATED

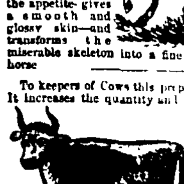
Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly reinvigorate broken down and low spirited horses, by strengthening and cleansing the stomach and intestines.

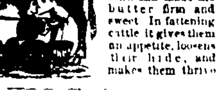
It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine looking and spirited horse.



To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle it gives them an appetite, loosens their hide, and makes them thrive much faster.



In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.



Price 25 Cents per Paper, or 5 Papers for $1.
